

TOTAL COMPLIANCE WITH TOTAL CONFIDENCE

PMI is critical in ensuring plant safety, preventing catastrophic failures and complying with important specifications and regulations. As regulations tighten, it's more important than ever that your PMI analysers can also boost productivity and operational efficiency while delivering total compliance with total confidence.

IN TESTING TIMES

TEST IN TOUGH ENVIRONMENTS

ROBUST, PORTABLE DESIGN
gives accuracy wherever you need it

TEST IN LOCATIONS WITH LIMITED ACCESS

SHARE DATA from inspection locations in **REAL TIME**
thanks to powerful data management tools

TEST WITH MINIMAL DISRUPTION TO OPERATIONS

FAST START UP TIMES
mean you have minimal disruption and downtime.

TEST QUICKLY AND EASILY

EASY-TO-USE, ERGONOMIC DESIGN
and long battery life make it possible to test hundreds of samples each day.

THE RIGHT TOOLS CAN:

1 Meet strict global regulations and specifications

Ensure process compliance e.g API, ASTM and the European Pressure Equipment Directive (PED), and provide material certification.

2 Ensure plant safety

Fast, accurate and reliable inspection of components before, during and after installation.

3 Improve plant efficiency

Rapid materials analysis from one second.

4 Minimise costs over the long term

Analysers designed to go the distance in the toughest environments.

5 Boost reporting and data management

Store your results safely, share data instantly and access it in real time from any computer with ExTOPE Connect.

The Hitachi High-Tech complete PMI toolbox for inspection:

OES
PMI-MASTER Smart

XRF
X-MET8000

LIBS
Vulcan

Hitachi High Tech's range of PMI analysers for inspection provide accurate, reliable and fast materials analysis, whatever the operation and whatever the environment.

To see how the Hitachi High-Tech range of PMI inspection analysers can deliver total compliance while improving productivity, get in touch with our expert team and book a demo today.
